

Golight / RadioRay Reassembly

1. Put the light's lamp housing in a vertical position before reattaching the top housing.
2. Reattach the top housing.
3. Gently push the lamp housing to a horizontal position
4. Reinstall the (2) screws that secure the top housing in place, on both sides of the light.
5. Portable Lights: Reattach the handle
Permanent Mount Lights: Reattach the screw covers or "ears" by snapping them in to place.
